## Environment

---

St Paul's School acknowledges the benefits of environmental management and undertakes to fulfil its, moral, legal and community duty, by taking all reasonable and practical measures to prevent or minimise harm to the environment.

### Objective

The overall aim of this policy is for St Paul's School to achieve sustainable continual environmental improvement.

### Our Commitment

St Paul's School will implement a management system with objectives and targets to:

- Maintain or enhance the services or product provided to customers while simultaneously minimising resource use and operating costs
- Achieve compatibility between economic development and the maintenance of the environment ensuring that proper consideration is given to the care of the flora, fauna, air, land, water and the community, which may be affected by activities
- Ensure compliance with local and state government legislation pertaining to the operation of the business, in addition to Government legislation and guidelines relating to the impact of the business on the surrounding environment
- Provide a safe and clean environment
- Limit the impact that the business has on the surrounding environment through the sound and careful management of its activities

To fulfil this commitment St Paul's School will observe all environmental laws and promote environmental awareness among all staff to increase an understanding of environmental matters. All employees, contractors, volunteers and visitors are directed to act likewise by exercising due diligence toward the environment in all their activities.

The Environment Policy will be available to the public and communicated to employees, contractors, volunteers, students and visitors.
